# Building a data-driven healthcare system: Strategies, and insights from the Health Data Hub

Emmanuel Bacry\*†<sup>1</sup>

<sup>1</sup>Plateforme des données de santé - Health Data Hub [Paris, France] – Health Data Hub – France

## Résumé

Provided for by the 24 July 2019 Law on the organisation and transformation of the healthcare system, the Health Data Hub is a public structure whose objective is to enable project coordinators to easily access non-nominative data hosted on a secure platform, in compliance with regulations and citizens' rights. They will be able to cross-reference and analyse the data in order to improve the quality of care and patient support.
